

# MIX HomePro™

Control Entertainment Plus Smart Home Technology

ENTERTAINMENT | LIGHTING | SAFETY & SECURITY | COMFORT & CONVENIENCE

 **URC**<sup>®</sup>  
Control the Experience.

## MX HomePro™ at a Glance

**SMART HUB** Connects via Wi-Fi or Ethernet. Controls main room of entertainment plus smart home devices throughout the home.

**MOBILE APP** A free download, the MX HomePro™ App offers one-touch system control at home or on the go. Controls multiple locations from a single smart device.

**SMART REMOTE CONTROL** Wi-Fi remote features a 2" color LCD. Controls an entire room of entertainment plus smart home devices throughout the home. Features a customizable Favorite Channels screen.

**Z-WAVE® GATEWAY** Controls all Z-Wave based lights, thermostats, door locks and security cameras. Enables creation of one-touch Z-Wave scenes.

**MX HOMEPRO™ EDITOR** Offers dealers simple, web-based programming via PC, Mac or Mobile. Cloud-based technology provides secure access and reliable file storage. Service remotely without rolling a truck.

# Enjoy Smart Home Installation with MX HomePro

**MX HomePro** meets the needs of today's Connected Generation and melds seamlessly into their unplugged lifestyle. Easy to install and program, MX HomePro allows users one-touch control of their home entertainment, as well as the Internet of Things: lighting, thermostats, security cameras and popular Z-Wave products.

In addition to the ergonomic Remote Control and Smart Hub, the MX HomePro App delivers on-the-go control via tablet and smart phone. Simple programming allows installers and users to get started quickly. And the MX HomePro Editor helps dealers maintain systems from anywhere with web access, without rolling a truck.

Simple, reliable and powerful, MX HomePro is a leap forward in integrated home control. It's ideal for single family homes, townhouses, condominiums and apartments alike.

ENTERTAINMENT | LIGHTING | SAFETY & SECURITY | COMFORT & CONVENIENCE

## Connect with the Innovator in Smart Home Control and Automation

Whether integrating their entertainment systems, or going for the full smart home experience, today's tech-savvy consumer trusts the leader in home automation and control. URC® has set the standard for innovation and customer satisfaction in a world that demands seamless connectivity.

### MX HomePro Offers Your Customer

- Connectivity and convenience
- Secure, cloud-based technology
- Integration with popular brands
- Z-Wave compatibility

 We listen to users, create solutions that fit their lifestyles, and then turn leading edge design into real world convenience.

## Superior Brand Integration

Connectivity isn't a feature, it's a lifestyle. Users demand seamless compatibility from an integrated control system. They also expect it to easily adapt to future technology.

As we designed MX HomePro, URC worked closely with our integration partners. These include leading names in A/V, lighting, HVAC, surveillance and security, and many more—supported by the industry's largest database of IR and IP control codes.

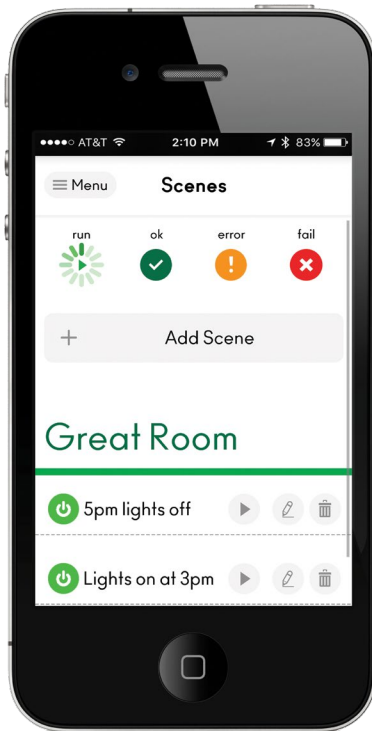

For the user, this partnership delivers a new standard of connectivity, a greater selection of system components and a more satisfying control experience.

## (Smart) Home Life with MX HomePro

### MX HomePro and Z-Wave\* Offer Amazing Possibilities

**Daybreak.** MX HomePro wakes you with soft light and music—right on schedule. Downstairs, the Internet of Things springs to life. The blinds open, the coffee brews and the morning news plays in the background.

**Heading for the door.** You select the Away setting on your remote or smart device. Thermostat, lighting and door lock presets kick in to keep your home safe and energy efficient all day long.

Or, maybe you forgot to do that. No worries. Easy access to your smart home system is a tap away on your tablet or smartphone.

**All back under one roof.** Something different is going on in every room. MX HomePro makes it easy for everyone to do their own thing. Or even come together for Movie Night.

**Bedtime.** MX HomePro goes into overnight mode. Lights are off, locks are set. Time for the Connected Generation to power down. Now, how about a little white noise to help you sleep?

**\*Z-Wave Gateway required to create Z-Wave scenes.**

## Easy Installation, Service Simplicity and Technical Support

URC enjoys strong and trusted relationships with integrators that are built on more than 25 years of innovation, superior products, and ongoing support. With MX HomePro, these relationships will only grow stronger.

MX HomePro installation is fast, and robust editing software offers convenient, web-based programming via PC, Mac, smartphone or tablet. Service your customer from almost anywhere without rolling a truck.

Our systems integrators enjoy award-winning training and support, both live and on the web, that keeps you up to date on the latest URC technology. And our partner sales and marketing programs are designed with your success in mind.
