

MX-1200

PC PROGRAMMABLE COLOR LCD REMOTE CONTROL

Simplify your life

Control all of your electronics with newfound ease using the URC MX-1200 color remote. This beauty is strong enough to control the most comprehensive home theater, yet elegant enough in appearance to sit in your living room, kitchen or guest bedrooms. It allows you to fully automate your home – from one touch to dim the lights and start the movie, to magically turning on music in every room.

Customize away!

The MX-1200 boasts a 2.4" color LCD touch screen that can be fully personalized to your liking. With a button press, you can set lighting to match your mood, watch your favorite recorded show, or any combination of events you can dream up. Your URC custom installation professional configures your system to suit your family's needs perfectly.

Plus, enjoy all the extras

Used in conjunction with one of our award-winning RF base stations, the MX-1200 can operate equipment

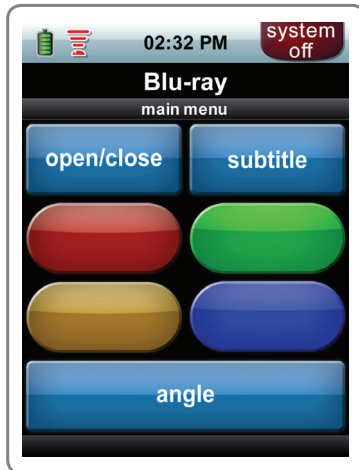

through walls or cabinet doors. This means you don't have to be in the same room as your stereo or TV but you can still control them entirely. The MX-1200 includes a rechargeable Lithium-Ion battery and an attractive tabletop charging cradle. And, it employs URCs state-of-the-art "pick up" sensor technology so it remains on when in use yet powers down when left idle.

Automate and control all your A/V products and lighting with the elegant MX-1200 remote.

Tech Talk

- Hard buttons that support virtually every function (power, numeric keys, channel up and down, navigation buttons and more)
- Fast, one-way control for a multitude of A/V components
- Easy setup and installation — uses URC CCP software (no new program for the installer to learn)
- Ability to adjust brightness and conserve energy
- 2.4" color LCD screen
- Communicates direct (IR) or through a base station (RF)
- Customizable graphics for both buttons and backgrounds
- 3 interchangeable buttons
- Variables and conditional logic capable
- **IR range:** 30-50 feet, depending upon environment
- **RF range:** 50-100 feet, depending upon environment
- **RF frequency:** 418 MHz Narrow Band
- **Weight:** 5.73 ounces with battery loaded
- **Size:** 8.46" (H) x 1.97" (W) x 1.02" (D)
- **Battery:** Includes rechargeable battery (Li-Ion) and charging base
- One year USA Limited Warranty

System Integration with URC Products

- Requires a URC base station per system for RF communication with IR components (URC MRF-260, URC MRF-350)
- Can control URC Lighting by Lutron® directly via RF and without another box or component
- Not compatible with URC's Total Control® product line
