BLADE RACE SIMULATOR

BLADE is a custom designed and built race simulator for the home user who requires the benefits of a professional grade simulator, but not the cost or space requirements demanded by a bespoke sim. Built on a specially commissioned, rigid, powder-coated steel frame, Blade boasts a custom designed BPS carbon, two-pedal box with electric fore/aft adjustment and a bespoke BPS carbon race seat, for the ultimate in feel and responsiveness.

SUCCESS THROUGH SIMULATION

Base Performance Simulators (BPS) is one of the UK's leading simulation companies, led by three-time Le Mans winning Aston Martin factory driver, Darren Turner. BPS use their knowledge and experience of professional simulation and racing to create bespoke simulators for racing teams, professional drivers, and amateur enthusiasts.

Blade features a Precision Sim GPX Steering Wheel and runs a professional steering motor from Simucube; the Simucube 2 PRO provides 25nm of torque for the most realistic steering feel in simulation.

For sound and vision, Blade is supplied with a speaker system and Sennheiser headset as standard, plus a single 49" curved high-resolution monitor with 120hz refresh rate, which creates a fully immersive driving experience.

FEATURES:

- Bespoke powder-coated steel frame
- BPS Bespoke carbon fibre two-pedal box – electric adjustment
- Simucube 2 PRO steering motor
- Precision SIM GPX steering wheel
- BPS Blade carbon seat
- Samsung 49" curved gaming monitor
- High specification gaming computer
- Speaker system
- Sennheiser PC373D 7.1 headset
- Installation and delivery (UK only)
- 12 month BPS warranty and telephone support

PRICE: FROM £22,750 SRP INC. VAT

OPTIONAL EXTRAS:

- Assetto Corsa PRO software with BPS track and car models
- Triple screen 32" gaming monitors with stand
- D-Box Gen3 4250i four point actuator kit
