TDC-5100
Total Control® Handheld Touch Screen Controller

OVERVIEW

This premium handheld controller presents a streamlined design with both a touch screen and hard buttons for optimal hand feel and functionality. The hard buttons deliver the convenience of control without having to look at the screen. When separated from the charging base, the keypad features back-side finger grips to complete a perfect fit. The vibrant 5-inch color LCD screen delivers high-resolution graphics and ease of use. With enhanced processing speed, the TDC-5100 enables quick response to simple one-touch or voice commands, and the built-in mic and speaker communicate seamlessly via Amazon Alexa, Comcast Xfinity or Apple TV. Proximity, ambient light and pickup sensors wake the device and ensure a premium user experience. Compatible with all URC Total Control integrations, the TDC-5100 is able to control an entire residential or commercial URC system.

- 5" high-resolution LCD Screen
