

TRC-1080

PROGRAMMABLE WI-FI (COLOR LCD) UNIVERSAL REMOTE CONTROL

Convenience customized

Envision your life in a home that helps you reach new levels of convenience. The TRC-1080 automatically “wakes up” when lifted thanks to pick-up sensor technology. With the capability to support virtually unlimited entertainment products, your family will realize the full potential of a URC Total Control® system. Just one button press

gives you immediate access to your entertainment components and more. Enjoy robust functionality to create a custom menu for quick access to things important to you. Dim the lights before powering up your Blu-ray player or raise them before catching up on your reading, all from the comfort of your chair.

Sophisticated style

Featuring a vivid 2-inch color high-resolution screen, with backlit LCD, the TRC-1080's sleek ergonomic design sits in a stylish piano black tabletop charging cradle that looks fabulous in any environment. Plus, with just the right number of buttons including the four colored buttons, you can enjoy fast access to every function and

explore any interactive service your TV/cable subscriber provides. The TRC-1080 also employs the latest in battery technology making it the perfect eco-friendly addition to your system.

Designed with your Total Control system in mind

Designed to be an extension of the Total Control family of products, this remote features quick connect Wi-Fi which means no waiting to take control. The feedback feature provides real-time monitoring right on your remote screen so you can see many things you're controlling. A full range of integrated components means having the freedom to set and monitor the temperature on your thermostat or change music lists while cooking dinner – making it easy to enjoy total control of just about anything.

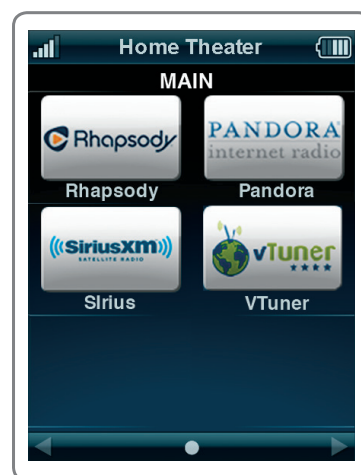

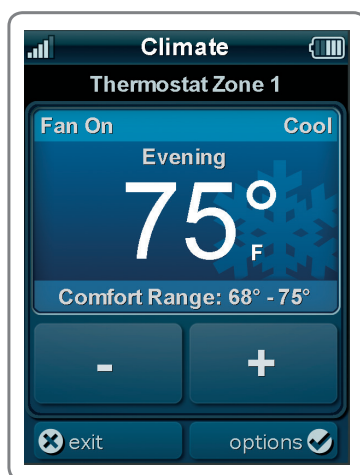

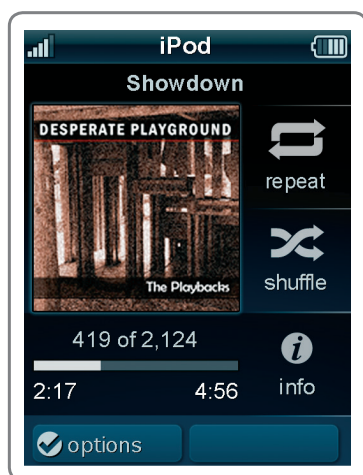

Simply Brilliant.
