#### ADVANTAGES

RAY Residence; Halo Plaster-in Tilt with interchangeable housing & rotolock position fixing.

Part of our **Residence** range, the **Halo Plaster in Housing (Tilt)** is the perfect way to fit a recessed light fitting, before plastering is completed. The black '**wings**' can have their depth altered, so that you can choose how recessed you want the light to appear. The bezel on our Halo products provide a slightly curved edge for the distribution of light, giving a more '**contemporary**' feel to the space. All Residence products are interchangeable with rotolock position fixing.

**Cutout** Ø78mm

#### DIMENSIONS

**Height (mm)** 48
