## IN-WALL COLOR TOUCHSCREEN

### Fully-Featured In-Wall Touchscreen

- 7" in-wall color touchscreen offers primary, whole-house control
- Built-in A/V intercom, camera, mic and speaker
- Proximity sensor wake-up function
- Ideal for door station and camera integration
- Install in kitchen, bedroom, family room – or conference room
- Intercom between TKP-7600 and TDC-7100 tabletop controller over network

### Next Generation User Interface

The TKP-7600 In-Wall Touchscreen provides next generation, primary whole-house control of entertainment and smart home products. It features a brilliant seven inch color touchscreen, built-in camera, microphone and new audio/video intercom - perfect for door station integration.

### Primary Whole-House Control

The sleek, premium design appeals to discerning homeowners, designers and architects alike. In addition to elegant control for lighting, security, surveillance cameras, thermostats, motorized shades and more, the TKP-7600 delivers home entertainment control with guide-based favorite channels, plus faster than ever speed, enhanced graphics and sensor-based wakeup function. It is designed to mount in portrait or landscape orientation.

*One touch access to home and family.*
