

MHUB PRO 2.0 (8x8)

Product code: MHUBPRO288100

UK: 2.50.843 AU: 2.50.855

EU: 2.50.853 US: 2.50.854

Designed to address the needs of a contemporary AV install, MHUB PRO 2.0 is fully HDMI 2.0 compatible, equipped with 18G HDMI interfaces and backplane to support Ultra HD 4K/60 (4:4:4) with HDBaseT 2.0 technology to transmit 4K to displays up to 100 metres away over a single Cat6 cable with no latency.

Versatile integrator-centric functions include an internal video scaler, which can fix certain video zones at 1080p, without affecting higher 4K resolution zones, so that every display is always performing at its best. Audio can be 'grabbed' from either the source or display via HDMI-ARC, and an internal 20x8 independent audio matrix switcher offers flexible routing of the grabbed audio, with volume and delay adjustments to make managing audio easy for connection to amps, active speakers, soundbar etc.
